2-Way Radios and Systems | MOTOTRBO Repeater

SLR5500 MOTOTRBO Repeater

(EUR)

Pricing Information Valid As Of: Tuesday, June 02, 2020

MOTOTRBO the next generation of Motorola professional two-way radio communications solutions.

Features

- Operates either in analogue or digital mode
- Clear LED indicators on front panel indicate operating mode
- Repeater disabled
- TX/RX status per slot
- Rack or wall-mount
- Integrated power supply
- Interface for battery back-up and charge
- Repeater Diagnostics and Control
- Digital Conventional, IP Site Connect, Capacity Plus, Linked Capacity Plus, Connect Plus
- Analog Conventional, MPT 1327 compatible
- Application developers kit (to enable 3rd parties to develop applications which interface to the repeater)

Standard Package

- Rack-mount repeater
- Power cable

NOTE reminder: The Standard Warranty is 24 months.

Technical Data

- VHF (136-174MHz); UHF1 (400-470MHz); 300R1 (300-360MHz)
- 64 channel capacity
- 1-50 Watts power
- 100% duty cycle at full power
- 1U form factor
- Weight 19 lbs (8.6 kg) - Dimensions (H x W x D) 1.75 x 19 x 14.6 in (44 x 483 x 370 mm)
- No self quieting frequency requirements
- Maritime compliancy for U HF1 model

NOTE: In order to meet the applicable Maritime standards the UHF1 repeater must be installed with an AC Filter (part number: DSFMT00FM03). To order this filter please contact a member of the Motorola Order Management team.

2-Way Radios and Systems | MOTOTRBO Repeater

SLR1000 MOTOTRBO Repeater

(EUR)

Pricing Information Valid As Of: Tuesday, June 02, 2020

MOTOTRBO next generation of Motorola professional radio communications repeater solutions.

Features

- Indoor Outdoor Compatible
- UHF Wideband or VHF Model
- Dimensions: 8" x 11" x 4"
- Weight: 12lbs
- IP 65 enclosure
- Weatherized Ethernet, DC power, and RJ45 AUX connectors
- Diagnostic support via Webpage
- Low Noise, Fan-less design
- Aesthetically pleasing
- Reduce overall TCO
- Easily expandable to additional sites

Standard Package

No HVAC required
Wall mount bracket
Less likely to need a permit or lease to deploy
Less overall space
Can add a duplexer, antenna relay and... all in one unit
Less power consumption
NOTE reminder: The Standard Warranty is 24 months.

DR 3000 Accessories (Continued)**Mid-Tier Repeater Full Capacity Plus Multi Site Licence Key**

- Licence key required to activate the Capacity Plus Multi Site feature in a DR 3000 / SLR 1000 / SLR 55000 repeater where the Capacity Plus Single Site feature has NOT previously been activated.
- Capacity Plus Multi Site provides a multi-site trunking solution for up to 15 sites and 24 channels (i.e. 12 repeaters*) per site with a maximum of 16 Trunked channels (i.e. 8 Trunked repeaters*) / 22 Data Revert channels (i.e. 11 Data Revert repeaters*) per site.
- All Trunked and Data Revert repeaters in a Capacity Plus Multi Site system need to have the Capacity Plus Multi Site feature activated using the CPS and this requires the purchase of a separate license key for each repeater*.
- IMPORTANT NOTE: This FULL Capacity Plus Multi Site licence does NOT support Capacity Plus Single Site channels, so if a repeater needs also to support Capacity Plus Single Site channels then a Capacity Plus Single Site / Incremental Capacity Plus Multi Site licence combination should be purchased instead.
- *Note: Excludes Digital Voting Satellite Receivers.

Part Number: HKVN4108A

CAP PLUS MULTI SITE DR/SLR1000/5000

Unit of Measure: EA

CE: No RTTE: No

List Price

€1400.00

**Mid-Tier Repeater NAI for Voice/CSBK License Key**

- License key required to activate the "Network Application Interface for Voice/CSBK" feature in a DR 3000 / SLR 1000 / SLR 5500 repeater.
- NAI for Voice/CSBK is an IP based interface that enables voice consoles to transmit and receive voice/CSBK calls to the radio system directly through the repeater.
- Where a wireline voice console is required to interface to a given system site then all voice capable repeaters* at that site must have their "Network Application Interface for Voice/CSBK" feature enabled using the CPS. Where a wireline voice console is not required to interface to a given system site, then repeaters at that site do not need to have this feature enabled.
- Voice capable repeaters are all repeaters except for data revert repeaters and repeaters where both slots are GPS revert slots.
- *Note: Excludes Digital Voting Satellite Receivers.

Part Number: HKVN4211A

VOICE NETWRK INTRFACE DR/SLR1000/5000

Unit of Measure: EA

CE: No RTTE: No

List Price

€155.00

**Mid-Tier Repeater NAI for Data License Key**

- License key required to activate the "Network Application Interface for Data" feature in a DR 3000 / SLR 1000 / SLR 5500 repeater.
- NAI for Data is an IP based interface that enables data applications using the MNIS (MOTOTRBO Network Interface Service) data gateway to transmit and receive data calls to the radio system directly through the repeater.
- Where an MNIS is required to interface to a given system site then all repeaters* at that site must have their "Network Application Interface for Data" feature enabled using the CPS. Where an MNIS is not required to interface to a given system site, then repeaters at that site do not need to have this feature enabled.
- *Note: Excludes Digital Voting Satellite Receivers.

Part Number: HKVN4212A

DATA NETWRK INTRFACE DR/SLR1000/5000

Unit of Measure: EA

CE: No RTTE: No

List Price

€770.00

**Mid-Tier Repeater Digital Voting Licence Key**

- Licence key required to activate the Digital Voting feature in a DR 3000 / SLR 1000 / SLR 5500 repeater.
- Digital Voting employs multiple Satellite Receivers (i.e. repeaters configured for "receive-only") to relay radio transmissions to a central Voting Repeater in order to address the Inbound / Outbound range mismatches that can arise due to the different radio / repeater radiated power levels.
- Only the Voting Repeater in a system (not the Satellite Receivers) need to have the Digital Voting feature activated using the CPS and this requires the purchase of a separate license key for each Voting Repeater.

Part Number: HKVN4240A

DIGITAL VOTING DR/SLR1000/5000

Unit of Measure: EA

CE: No RTTE: No

List Price

€840.00

MAP Programming/Test Cable

- Used to either program the MOTOTRBO Mobile Radio or connect to the RLN4460C test box for service.

Part Number: PMKN4016B MAP PROGRAMMING/TEST CABLE	List Price
Unit of Measure: EA CE: No RTTE: No	€28.00

MOTOTRBO MAP Universal Cable

- Allows access to all the MAP pins on the radio. Can be used to connect various accessories.
- Dealer is solely responsible for obtaining, or requiring its customers to obtain, all applicable or necessary product regulatory and/or safety approvals (for example, UL or CE), required for any third party accessory to be used with a Motorola radio system or product. Dealer is solely responsible for any warranty, quality, performance, safety or any other issues relating to the use of this cable with a non-Motorola branded or approved accessory. Dealer may NOT in any manner, state, imply or otherwise represent that any non-Motorola branded or approved accessories have been approved or otherwise authorized by Motorola for use with this cable and a Motorola Product. **Note:** This Cable CANNOT be used in combination with any non-Motorola approved or branded accessory or product with a MOTOTRBO FM Intrinsically Application Product.

Part Number: PMKN4018B MAP UNIVERSAL CABLE	List Price
Unit of Measure: EA CE: No RTTE: No	€28.00

DR 3000 Wall Mount Bracket

- Allows the repeater to be wall mounted.
- Kit contains Bracket and 4 M6 screws.

Part Number: PMLE4476A WALL MOUNT BRACKET	List Price
Unit of Measure: EA CE: No RTTE: No	€120.00

MOTOTRBO Mobile Accessory Connector kit

- Rear mobile connector kit.
- Dealer is solely responsible for obtaining, or requiring its customers to obtain, all applicable or necessary product regulatory and/or safety approvals (for example, UL or CE), required for any third party accessory to be used with a Motorola radio system or product. Dealer is solely responsible for any warranty, quality, performance, safety or any other issues relating to the use of this cable with a non-Motorola branded or approved accessory. Dealer may NOT in any manner, state, imply or otherwise represent that any non-Motorola branded or approved accessories have been approved or otherwise authorized by Motorola for use with this cable and a Motorola Product. **Note:** This Cable CANNOT be used in combination with any non-Motorola approved or branded accessory or product with a MOTOTRBO FM Intrinsically Application Product.

Part Number: PMLN5072A KIT, MOTOTRBO REAR ACCESSORY CONNECTOR	List Price
Unit of Measure: EA CE: No RTTE: No	€5.00

DR 3000 Repeater Battery Backup Cable

- Battery Backup cable for repeater.

Part Number: RKN4152A CABLE, BATTERY BACKUP, LTD REPEATER	List Price
Unit of Measure: EA CE: No RTTE: No	€40.21

List Price
€1092.00**High-Tier Repeater Capacity Plus Single Site Feature - License Key**

- This orders the Licence key required to activate the Capacity Plus Single Site feature in an MTR3000 / SLR 8000 repeater.
- Capacity Plus Single Site provides a single site trunking solution for up to 40 channels (i.e. 20 repeaters*) with a maximum of 16 Trunked channels (i.e. 8 Trunked repeaters*) / 24 Data Revert channels (i.e. 12 Data Revert repeaters*).
- All Trunked and Data Revert repeaters in a Capacity Plus Single Site system need to have the Capacity Plus Single Site feature activated using the CPS and this requires the purchase of a separate license key for each repeater*.
- *Note: Excludes Digital Voting Satellite Receivers.

Part Number: HKVN4045A
CAP PLUS SINGLE SITE MTR/SLR8000
Unit of Measure: EA

CE: No RTTE: No

List Price
€450.00**High-Tier Repeater Digital Telephone Patch - Licence Key**

- This orders the Licence key to activate the Digital Telephone Patch feature in an MTR3000 / SLR 8000 repeater.
- Digital Telephone Patch enables MOTOTRBO digital system users to place and receive telephone calls which are routed via a gateway between a landline telephone network and MOTOTRBO radio system.
- Each phone gateway repeater in the system needs to have the Digital Telephone Patch feature activated using the CPS and this requires the purchase of a separate license key for each phone gateway repeater.

Part Number: HKVN4057A
DGTL PHONE PATCH MTR/SLR8000
Unit of Measure: EA

CE: No RTTE: No

List Price
€205.00**High-Tier Repeater Capacity Plus Multi Site Feature - Incremental License Key**

- This orders the Licence key required to activate the Capacity Plus Multi Site feature in an MTR3000 / SLR 8000 repeater where the Capacity Plus Single Site feature has previously been activated.
- Capacity Plus Multi Site provides a multisite trunking solution for up to 15 sites and 24 channels (i.e. 12 repeaters*) per site with a maximum of 16 Trunked channels (i.e. 8 Trunked repeaters*) / 22 Data Revert channels (i.e. 11 Data Revert repeaters*) per site.
- All Trunked and Data Revert repeaters in a Capacity Plus Multi Site system need to have the Capacity Plus Multi Site feature activated using the CPS and this requires the purchase of a separate license key for each repeater*.
- *Note: Excludes Digital Voting Satellite Receivers.

Part Number: HKVN4070A
CAP+ SS TO MS UPGR MTR/SLR8000
Unit of Measure: EA

CE: No RTTE: No

List Price
€950.00**High-Tier Repeater Capacity Plus Multi Site Feature - Full License Key**

- This orders the Licence key required to activate the Capacity Plus Multi Site feature in an MTR3000 / SLR 8000 repeater where the Capacity Plus Single Site feature has not previously been activated.
- Capacity Plus Multi Site provides a multisite trunking solution for up to 15 sites and 24 channels (i.e. 12 repeaters*) per site with a maximum of 16 Trunked channels (i.e. 8 Trunked repeaters*) / 22 Data Revert channels (i.e. 11 Data Revert repeaters*) per site.
- All Trunked and Data Revert repeaters in a Capacity Plus Multi Site system need to have the Capacity Plus Multi Site feature activated using the CPS and this requires the purchase of a separate license key for each repeater*.
- IMPORTANT NOTE: This FULL Capacity Plus Multi Site licence DOES NOT support Capacity Plus Single Site channels, so if a repeater needs also to support Capacity Plus Single Site channels then a Capacity Plus Single Site / Incremental Capacity Plus Multi Site licence combination should be purchased instead.
- *Note: Excludes Digital Voting Satellite Receivers.

Part Number: HKVN4109A
CAP PLUS MULTI SITE MTR/SLR8000
Unit of Measure: EA

MTR3000 Accessories (Continued)**High-Tier Repeater NAI for Voice/CSBK - Licence Key**

- This orders the Licence key to activate the "Network Application Interface for Voice/CSBK" feature in an MTR3000 / SLR 8000 repeater.
- This is an IP based interface that enables voice consoles to transmit and receive voice/CSBK calls to the radio system directly through the repeater.
- Where a wireline voice console is required to interface to a given system site then all voice capable repeaters* at that site must have their "Network Application Interface for Voice/CSBK" feature enabled using the CPS. Where a wireline voice console is not required to interface to a given system site, then repeaters at that site do not need to have this feature enabled.
- Voice capable repeaters are all repeaters except for data revert repeaters and repeaters where both slots are GPS revert slots.
- Note: Excludes Digital Voting Satellite Receivers.

Part Number: HKVN4214A

VOICE NETWRK INTRFACE MTR/SLR8000

CE: No RTTE: No

List Price

€155.00

**High-Tier Repeater NAI for Data - Licence Key**

- This orders the Licence key to activate the "Network Application Interface for Data" feature in an MTR3000 / SLR 8000 repeater.
- This is an IP based interface that enables data applications using the MNIS (MOTOTRBO Network Interface Service) data gateway to transmit and receive data calls to the radio system directly through the repeater.
- Where a MNIS is required to interface to a given system site then all repeaters* at that site must have their "Network Application Interface for Data" feature enabled using the CPS. Where MNIS is not required to interface to a given system site, then repeaters at that site do not need to have this feature enabled.
- *Note: Excludes Digital Voting Satellite Receivers.

Part Number: HKVN4215A

DATA NETWRK INTRFACE MTR/SLR8000

Unit of Measure: EA

CE: No RTTE: No

List Price

€770.00

**High-Tier Repeater Digital Voting Feature - Licence Key**

- This orders the Licence key to activate the Digital Voting feature in an MTR3000 / SLR 8000 repeater.
- Digital Voting employs multiple Satellite Receivers (receive-only repeaters) to relay radio transmissions to a central Voting Repeater in order to address the Inbound / Outbound range mismatches that can arise due to the different radio / repeater radiated power levels.
- Only the Voting Repeaters in a system (not the Satellite Receivers) need to have the Digital Voting feature activated using the CPS and this requires the purchase of a separate license key for each Voting Repeater.

SLR1000 Accessories (Continued)**Mid-Tier Repeater Incremental Capacity Plus Multi Site Licence Key**

- License key required to activate the Capacity Plus Multi Site feature in a DR 3000 / SLR 1000 / SLR 5500 repeater where the Capacity Plus Single Site feature has previously been activated.
- Capacity Plus Multi Site provides a multi-site trunking solution for up to 15 sites and 24 channels (i.e. 12 repeaters*) per site with a maximum of 16 Trunked channels (i.e. 8 Trunked repeaters*) / 22 Data Revert channels (i.e. 11 Data Revert repeaters*) per site.
- All Trunked and Data Revert repeaters in a Capacity Plus Multi Site system need to have the Capacity Plus Multi Site feature activated using the CPS and this requires the purchase of a separate license key for each repeater*.
- *Note: Excludes Digital Voting Satellite Receivers.

Part Number: HKVN4063A

CAP+ SS TO MS UPGR DR/SLR1000/5000

Unit of Measure: EA

CE: No RTTE: No

List Price

€950.00

**Mid-Tier Repeater Full Capacity Plus Multi Site Licence Key**

- Licence key required to activate the Capacity Plus Multi Site feature in a DR 3000 / SLR 1000 / SLR 55000 repeater where the Capacity Plus Single Site feature has NOT previously been activated.
- Capacity Plus Multi Site provides a multi-site trunking solution for up to 15 sites and 24 channels (i.e. 12 repeaters*) per site with a maximum of 16 Trunked channels (i.e. 8 Trunked repeaters*) / 22 Data Revert channels (i.e. 11 Data Revert repeaters*) per site.
- All Trunked and Data Revert repeaters in a Capacity Plus Multi Site system need to have the Capacity Plus Multi Site feature activated using the CPS and this requires the purchase of a separate license key for each repeater*.
- IMPORTANT NOTE: This FULL Capacity Plus Multi Site licence does NOT support Capacity Plus Single Site channels, so if a repeater needs also to support Capacity Plus Single Site channels then a Capacity Plus Single Site / Incremental Capacity Plus Multi Site licence combination should be purchased instead.
- *Note: Excludes Digital Voting Satellite Receivers.

Part Number: HKVN4108A

CAP PLUS MULTI SITE DR/SLR1000/5000

CE: No RTTE: No

List Price

€1400.00

**Mid-Tier Repeater NAI for Voice/CSBK License Key**

- License key required to activate the "Network Application Interface for Voice/CSBK" feature in a DR 3000 / SLR 1000 / SLR 5500 repeater.
- NAI for Voice/CSBK is an IP based interface that enables voice consoles to transmit and receive voice/CSBK calls to the radio system directly through the repeater.
- Where a wireline voice console is required to interface to a given system site then all voice capable repeaters* at that site must have their "Network Application Interface for Voice/CSBK" feature enabled using the CPS. Where a wireline voice console is not required to interface to a given system site, then repeaters at that site do not need to have this feature enabled.
- Voice capable repeaters are all repeaters except for data revert repeaters and repeaters where both slots are GPS revert slots.
- *Note: Excludes Digital Voting Satellite Receivers.

Part Number: HKVN4211A

**Mid-Tier Repeater NAI for Data License Key**

- License key required to activate the "Network Application Interface for Data" feature in a DR 3000 / SLR 1000 / SLR 5500 repeater.
- NAI for Data is an IP based interface that enables data applications using the MNIS (MOTOTRBO Network Interface Service) data gateway to transmit and receive data calls to the radio system directly through the repeater.
- Where an MNIS is required to interface to a given system site then all repeaters* at that site must have their "Network Application Interface for Data" feature enabled using the CPS. Where an MNIS is not required to interface to a given system site, then repeaters at that site do not need to have this feature enabled.
- *Note: Excludes Digital Voting Satellite Receivers.
